

Vigilant is Remotely Securing the ANZ Bank Branches

Vigilant Technology provided an integrative CCTV solution at the ANZ bank

About the ANZ bank

ANZ is one of the five largest companies in Australia and New Zealand and a major international banking and financial services group, which is among the top 50 banks in the world. ANZ world headquarters is located in Melbourne, where it first opened an office as the Bank of Australasia in the 1830s. ANZ's impressive history stretches back over 150 years and involves dozens of different banks and assets of AUD\$335 billion. The ANZ bank has 1,265 worldwide points of representation and 781 branches in Australia.

ANZ's two main divisions and specialized businesses are the Personal Division and the Institutional Division which provides a full range of financial products and services to ANZ's business, corporate and institutional clients.

The challenge

ANZ bank owns 1,265 worldwide points of representation and 781 branches in Australia since its establishment in 1835. The bank is looking for high-end DVRs to allow long-term high quality recording and storage at branch level together with the ability to remotely monitor, receive alerts of events, make visual alarms verification and store video sequences from the branches in the ANZ Control Room (ISMC), through a friendly user interface. The entire video content is being transmitted and controlled via an ADSL / VPN Secure Network.

Vigilant Solution

TCM Security, an advanced system integrator in physical security and surveillance, specializes in the deliverance of security-oriented Surveillance & Management Systems for the security and defense marketplace in Australasia. The TCM works closely with Vigilant Technology to provide the ANZ bank's security technical staff with innovative concepts, systems design, engineering and development services.

The installation of the Vigilant system in the ANZ has evolved from being a high-end recording solution for the bank branches into an integrated recording, storing, alerting and remote monitoring solution. Vigilant system has proven itself of delivering and even exceeding the requirements set by the bank.

Elie Maoz, Sales Director of Vigilant Technology said: "The system operates fully according to all set standards and configurations, and has proven itself to be extremely reliable can improve even further the effectiveness of the Vigilant system for the ANZ".
